1 INTRODUCTION

Safeguarding children is everyone’s responsibility. Everyone who comes into contact with children and families has a role to play.

Annex 1 of this policy gives guidance on when to be concerned that a child is being abused.

The purpose of this policy is to inform staff¹, parents, volunteers and governors about the school's responsibilities for safeguarding children and to enable everyone to have a clear understanding of how these responsibilities should be carried out.

The Governing Body takes seriously its responsibility to safeguard and promote the welfare of children in its care and to work together with other agencies to ensure adequate arrangements within our school to identify, assess, and support children who are, or who may be, suffering harm.

We recognise that all adults, including temporary staff, volunteers and governors, have a full and active part to play in protecting children from harm and that the child’s welfare is our paramount concern.

¹ Wherever the word “staff” is used, it covers ALL staff on site, including ancillary and supply staff, and volunteers working with children

All staff members believe that our school should provide a caring, positive, safe and stimulating environment that promotes the social, physical and moral development of the individual child.

Staff members working with children are advised to maintain an attitude of 'it could happen to a child we know' where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the interests of the child.

This School will:

- support the child's development in ways that will foster security, confidence and independence;
- provide an environment in which children and young people feel safe, secure, valued, respected, feel confident and know how to approach adults if they may be worried;
- provide a systematic means of monitoring children known or thought to be at risk of harm, and ensure we, the school, contribute to assessments of need and support packages for those children;
- emphasise the need for good levels of communication between all members of staff and between the school and other agencies;
- have and regularly review a structured procedure within the school which will be followed by all members of the school community in cases of suspected abuse;
- develop and promote effective working relationships with other agencies, especially the Police and Children's Social Care;
- ensure that all adults within our school who have substantial access to children have been recruited and checked as to their suitability in accordance with Part 3 of Keeping Children Safe in Education (DfE September 2016)².

2 STATUTORY FRAMEWORK

The school will act in accordance with the following government legislation and guidance:

- The Children Act 1989
- The Children Act 2004
- Education Act 2002
- Keeping Children Safe in Education (DfE September 2016): [Keeping children safe in education: for schools and colleges](#)
- Working Together to Safeguard Children (2015) [Working together to safeguard children](#)

2

- The Education (Child Information) (England) Regulations 2005
- The Counter-Terrorism and Security Act 2015 s. 26.

3 CONFIDENTIALITY

As a general principle, all matters relating to child protection are confidential and should only be shared on a 'need-to-know' basis.

The headteacher or designated safeguarding lead will disclose any child protection related information about a child to other members of staff on a need to know basis only.

All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children.

All staff must be aware that they cannot promise a child to keep secrets if doing so might compromise the child's safety or wellbeing.

The intention to refer a child to Children's Social Care will be shared with parents/carers unless to do so could put the child at greater risk of harm, or impede a criminal investigation. If in doubt, advice should be sought from the MASH.

4 RESPONSIBILITIES

All staff responsibilities

All staff have an important role to play in supporting vulnerable children and identifying concerns early and providing help.

To achieve this they will:

- establish and maintain an environment where children feel secure, are encouraged to talk and are listened to
- be aware of the signs of abuse and maintain an attitude of "it could happen here" with regards to child protection
- ensure that children know that there are adults in the school whom they can approach if they are worried about any problems
- know what to do if a child tells them they are being abused or neglected
- know how and where to record their concerns and report these to the Designated Safeguarding Lead as soon as possible
- if a child is in immediate danger, know how to refer the matter to Children's Social Care and/or the police immediately
- support pupils in line with their Child Protection Plan and notify the Designated Safeguarding Lead of any child on a Child Protection Plan who has an unexplained absence

- actively plan opportunities within the curriculum for children to develop the skills they need to assess and manage risk appropriately and keep themselves safe
- be aware of and follow the [Sussex Child Protection & Safeguarding Procedures](#), produced by West Sussex, East Sussex, and Brighton & Hove. This will include the referral process
- have read and understand Part 1 of Keeping Children Safe in Education September 2016 and be alert to signs of abuse and know to whom they should report any concerns or suspicions
- participate in safeguarding training as part of their induction
- receive safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children
- ensure that they know who the Designated and Deputy Safeguarding Lead(s) is/are and how to contact them
- be aware of the early help process and understand their role in it. This includes identifying problems and working effectively with other agencies that provide support to pupils
- refer to the headteacher or principal if they have concerns about another member of staff
- refer to the chair of governors where the concerns are about the headteacher or principal.

Special Educational Needs & Disabilities

As a school, we are aware that children with SEN and disabilities can face additional safeguarding challenges and expect all staff to recognise and challenge where appropriate:

- assumptions that can be made that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability and not identified as potential signs of abuse
- the potential for children with SEN and disabilities being disproportionately impacted by behaviours, such as bullying, without showing any signs
- the communication barriers for some children with SEN and disabilities.

Responsibilities of the Governing Body

The nominated Governor for Child Protection in this school is:

Name: Heather Beeby

The responsibilities placed on governing bodies and proprietors include:

- making sure that the safeguarding policies & procedures in the school are effective and comply with the law at all times. This should include a Child Protection Policy (reviewed at least annually and available online); and a Staff Behaviour Policy (sometimes called a Code of Conduct) which should, amongst other things, include acceptable use of technologies staff/pupil relationships and communications including the use of social media
- putting in place appropriate safeguarding responses to children who go missing from education, particularly on repeat occasions
- appointing a designated safeguarding lead who is part of the senior staff team and has this recorded on their job description in line with Annex B of Keeping Children Safe in Education 2016
- ensuring that any safeguarding deficiencies or weaknesses within the school are remedied without delay and informing West Sussex Safeguarding Board about the discharge of duties via the safeguarding audit
- ensuring that there are procedures in place to handle allegations against all staff members. Such allegations must be referred to the local authority designated officer (LADO)
- recognising that neither the governing body, nor individual governors, have a role in pursuing or managing the processes associated with individual cases of child protection
- recognising that neither the governing body, nor individual governors, have a right to know details of such cases, except when exercising their disciplinary functions in respect of allegations against staff
- making sure all staff have been trained appropriately and that this is updated in line with guidance
- ensuring that the school is contributing to inter-agency working, which includes providing a coordinated offer of early help when additional needs of children are identified
- for e-learning, making sure that appropriate filters and appropriate monitoring systems are in place safeguarding against potentially harmful and inappropriate online material
- giving consideration as to how children may be taught about safeguarding including: online, through teaching and learning opportunities and as part of providing a broad and balanced curriculum
- ensuring that schools create a culture of safe recruitment and as part of that adopt recruitment procedures that help deter, reject or identify people who might abuse children (Part 3: Safer Recruitment. Keeping Children Safe in Education, September 2016). This includes ensuring taking up references for each shortlisted candidate **before** interview and ensuring that at least one member of any appointing panel, including at shortlisting, will have attended safer recruitment training

- ensuring that the school keeps an up to date single central record (SCR) of all staff and volunteers and the dates of all appropriate safeguarding checks
- monitoring the adequacy of resources committed to child protection and the staff and governor training profile
- ensuring that the school complies with the 'Disqualification under the Childcare Act 2006', guidance issued in February 2015 (only required if your school is impacted by this guidance).

Responsibilities of Designated Safeguarding Lead (DSL)

In this school, any individual can contact the designated safeguarding lead if they have concerns about a child.

The Designated Safeguarding Lead in this school is:

NAME: Emma Brown (Headteacher) Date: September 2017

The Deputy Safeguarding Leads in this school are:

NAME: Alex DeFreitas (SENCo) and Alice Burnage (SENCo) Date: Sep 2017

Whilst the activities of the designated safeguarding lead can be delegated to appropriately trained deputies the ultimate lead responsibility for child protection, as set out above, remains with the designated safeguarding lead; this lead responsibility should not be delegated.

The designated safeguarding lead will:

- assist the governing body in fulfilling their responsibilities under section 175 or 157 of the Education Act 2002
- attend initial training for their role and refresh this every two years
- keep their knowledge and skills updated at least annually
- ensure that all staff know who the designated safeguarding lead is, their role and how to make contact
- ensure that all staff understand their responsibilities in relation to signs of abuse and responsibility to refer any concerns to the designated safeguarding lead. In addition, the designated safeguarding lead should ensure that all staff read and understand Part 1 of Keeping Children Safe in Education 2016 and have a record of when this was done
- ensure that new staff participate in safeguarding training as part of their induction and that all staff receive safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children.

The designated safeguarding lead is expected to:

- refer cases of suspected abuse to the West Sussex MASH. Where a referral is made that notes are completed that same day
- support staff who make referrals to local authority Children's Social Care
- refer cases to the Channel programme where there is a radicalisation concern as required
- support staff who make referrals to the Channel programme
- refer cases where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required
- refer cases where a crime may have been committed to the police as required.

Work with others as follows:

- liaise with the headteacher or principal to inform him or her of issues especially ongoing enquiries under section 47 of the Children Act 1989 and police investigation
- as required liaise with the case manager and where required the LADO, in all cases involving allegations against members of staff (both current and former members of staff)
- liaise with staff on matters of safety and safeguarding, and when deciding whether to make a referral by liaising with relevant agencies
- act as a source of support, advice and expertise for staff.

Training

As well as training all members of staff as above the DSL and deputies should undergo training to provide them with the skills required to carry out the role. This training should be updated at least every two years.

The DSL and deputies should undertake Prevent Awareness training.

The DSL should be afforded time to allow them to understand and keep up with any developments relevant to their role so they:

- understand the assessment process for providing early help and intervention for example, through locally agreed common and shared assessment processes such as early help assessments
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so

- ensure each member of staff has access to and understands the school or college's child protection policy and procedures, especially new and part time staff
- are alert to the specific needs of children in need, those with special educational needs and young carers
- are able to keep detailed, accurate, secure written records of concerns and referrals separately from the main pupil file and use these records to assess the likelihood of risk. The written records should clearly identify details of the concerns and what action was taken. If these are stored electronically ensure that they are differently password protected from the child's other files and accessible only by the headteacher/DSL
- understand and support the school or college with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation
- obtain access to resources and attend any relevant or refresher training courses
- encourage a culture of listening to children and taking account of their wishes and feelings among all staff, in any measures the school or college may put in place to protect them
- ensure that where a pupil transfers school and is on a Child Protection Plan or is Looked After, the information is passed to the new school immediately and the child's social worker informed
- act as a source of support, advice and expertise to staff on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies
- ensure that either they or the class teacher attends Child Protection conferences, core groups or other multi-agency planning meetings, contributes to assessments and provides a report which will normally have been shared with the parents
- ensure that any child who is subject to a child protection plan and who is absent without explanation for two days or more is referred to their key worker's social care team. In some cases any absence may be a cause for concern and warrant immediate reporting
- ensure the school's child protection policy is reviewed annually, the procedures and implementation are updated and reviewed regularly and work with governing bodies or proprietors regarding this
- be responsible for making the senior leadership team aware of trends in behaviour that may affect child welfare.

5 CHILD PROTECTION PROCEDURES

If any member of staff has concerns about a child (as opposed to a child being in immediate danger³)

- The member of staff will report their concerns to the designated safeguarding lead/headteacher.
- The designated safeguarding lead will decide whether the concerns should be referred to the Multi-Agency Safeguarding Hub (MASH). If there are grounds for actual or suspected significant harm then a referral will be made to the MASH via telephone in the first instance. If the designated safeguarding lead is unsure about whether a referral is required they should contact the MASH for advice.
- If it is decided to make a referral to the MASH this will be usually be discussed with the parents, unless to do so would place the child at further risk of harm or could impact on a police investigation (the MASH is able to provide advice on this).
- The member of staff will make an accurate and detailed recording (which may be used in any subsequent court proceedings) as soon as possible and on the same day. The signed and dated recording must be a clear, precise, factual account of the observations. Do not add comments or opinion although observations about a child's demeanour or emotional state may be recorded.
- The MASH will require a follow up of any phone call in writing from the referrer. The designated safeguarding lead will ensure that any written referrals are made using the Request for Support form available here <http://www.westsussexscb.org.uk/professionals/contacts-for-referral/> and can also be found on the LSCB website.
- Particular attention will be paid to the attendance and development of any child for who the school has concerns, or who has been or is the subject of a Child Protection Plan.

If a member of staff has concerns about another staff member

1. An allegation is any information which indicates that a member of staff/volunteer may have:
 - behaved in a way that has, or may have harmed a child
 - possibly committed a criminal offence against/related to a child
 - behaved towards a child or children in a way which indicates s/he would pose a risk of harm if they work regularly or closely with children.
2. This applies to any child the member of staff/volunteer has contact with in their personal, professional or community life.

³ If a child is in immediate danger then the police should be contacted immediately.

3. To reduce the risk of allegations all staff should be aware of safer working practice and should be familiar with the guidance contained in the staff handbook, school code of conduct and/or government document 'Guidance for Safer Working Practice for Adults who work with Children and Young People in Education Settings'.
<http://webarchive.nationalarchives.gov.uk/20100202100434/dcsf.gov.uk/everychildmatters/resources-and-practice/ig00311/>
4. If staff have concerns about another staff member then this should be referred to the headteacher or principal. If the allegation is against the headteacher or principal, then the referral should be made to the chair of governors, chair of the management committee, or proprietor of an independent school as appropriate. If for any reason this causes a delay, then the the local authority designated officer (LADO) should be approached directly.
5. The person to whom an allegation is first reported should take the matter seriously and keep an open mind. S/he should not investigate or ask leading questions if seeking clarification. It is important not to make assumptions. Confidentiality should not be promised and the person should be advised that the concern will be shared on a 'need to know' basis only.
6. Actions to be taken include:
 - making an immediate written record of the allegation using the informant's words including: time, date and place where the alleged incident took place, brief details of what happened, what was said and who was present
 - this record should be signed, dated and immediately passed on to the headteacher/principal/chair of governors
 - the recipient of an allegation must not unilaterally determine its validity and failure to report it in accordance with procedures is a potential disciplinary matter. The headteacher or chair will not investigate the allegation themselves, or take written or detailed statements, but will assess and decide whether to refer the concern to the LADO. If there is any doubt as to whether to refer advice should be taken from the LADO.
7. If there are concerns that a child is at risk the matter must be immediately reported to MASH.

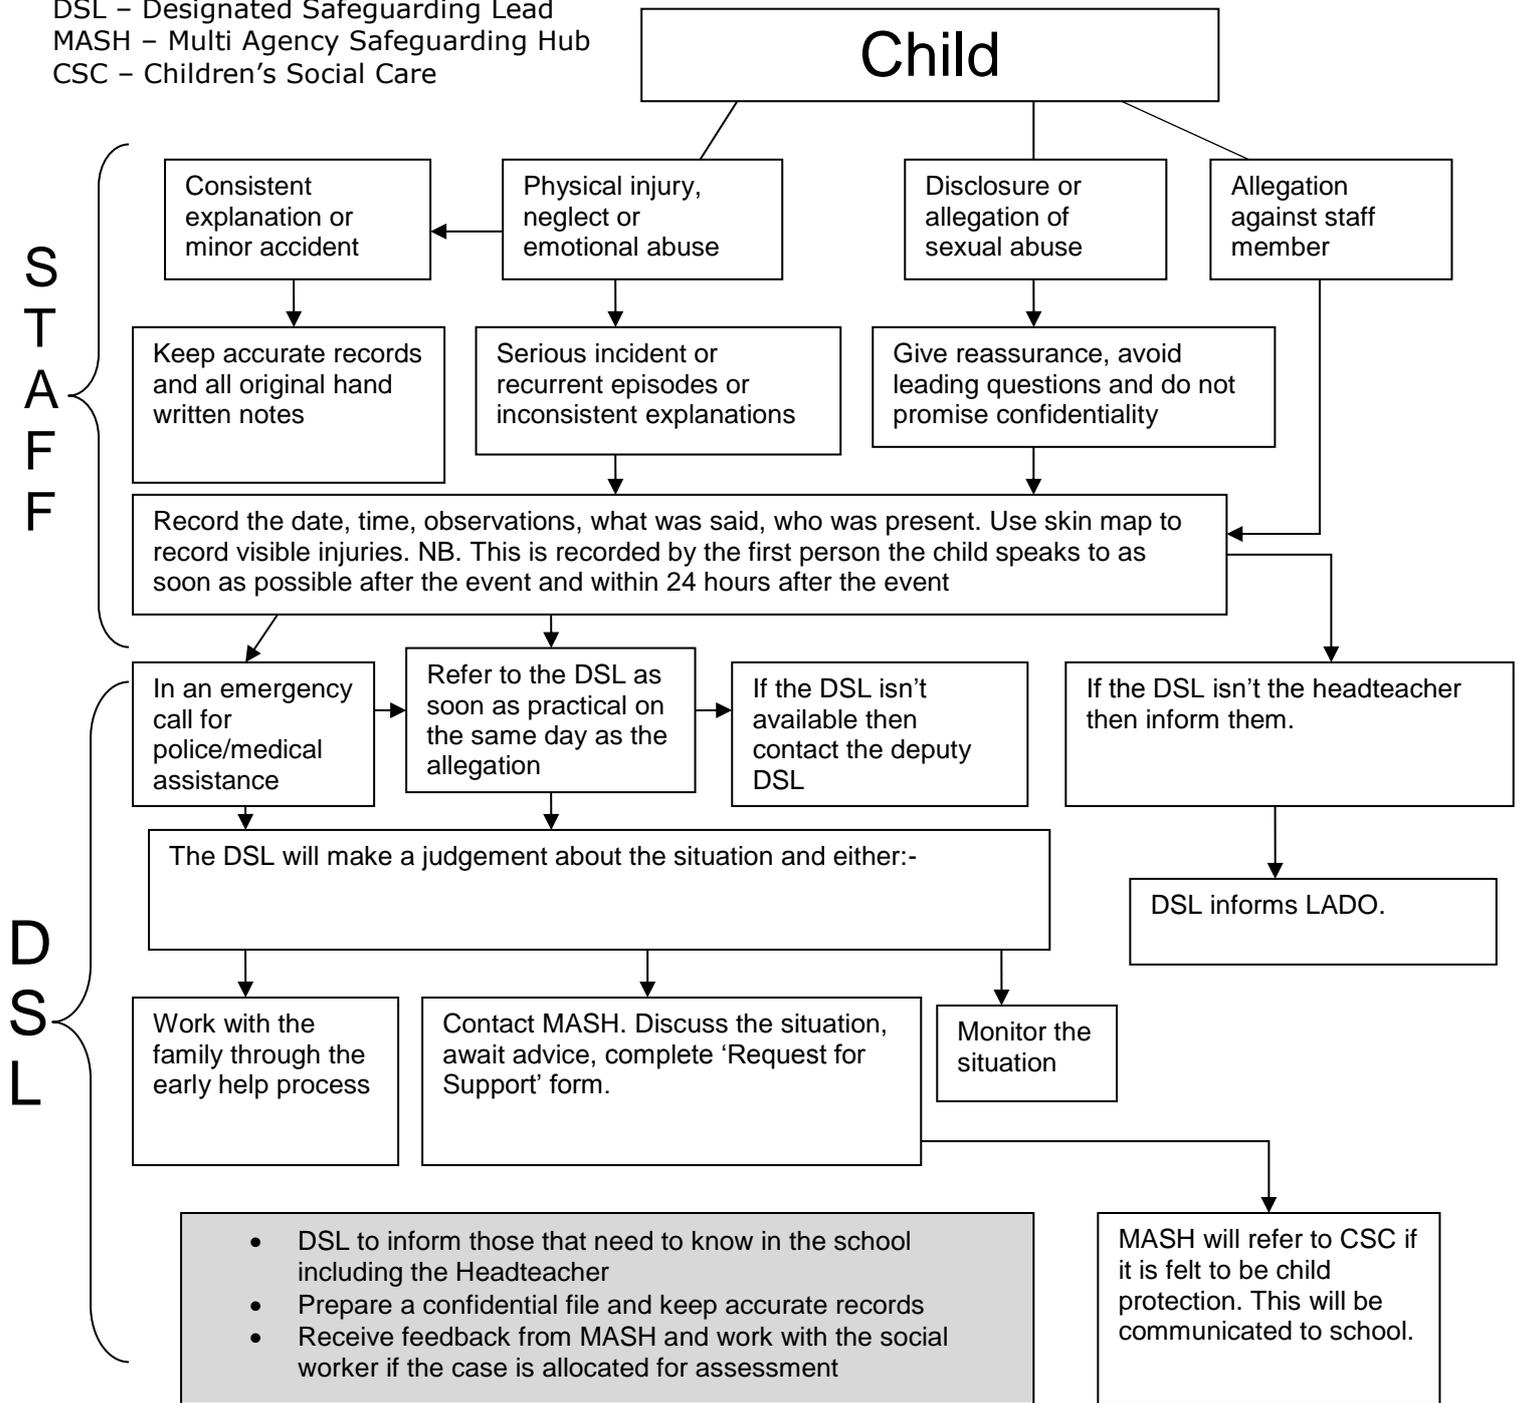

Whistleblowing

We will ensure that all staff members are aware of their duty to raise concerns, where they exist, about the actions or attitudes of colleagues. If necessary the member of staff can speak with the headteacher, the chair of governors or with the LADO.

Further assistance for staff to raise concerns can be accessed by calling the NSPCC whistleblowing helpline on 0800 028 0285.

Flowchart for child protection procedures for schools

DSL – Designated Safeguarding Lead
MASH – Multi Agency Safeguarding Hub
CSC – Children’s Social Care

6 WHEN TO BE CONCERNED

All staff and volunteers should be aware of the main categories of abuse:

Abuse

A form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces illness in a child.

Emotional abuse

The persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental ability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child although it may occur alone.

Sexual abuse

Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet) by establishing a close relationship or friendship. Sexual abuse is not solely perpetrated by adult males, women can also commit acts of sexual abuse as can other children.

Neglect

The persistent failure to meet a child's basic physical and/or psychological needs likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including

exclusion from home or abandonment), protect a child from physical and emotional harm or danger, ensure adequate supervision (including the use of inadequate care-givers), or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Other aspects of risk requiring special attention

In addition school staff should be aware of the specific safeguarding issues listed below. Schools should ensure that, where such risks may be more likely, staff are guided on how to understand and act accordingly where there is concern about:

- child missing from education
- child missing from home or care
- child sexual exploitation (CSE)
- bullying including cyberbullying
- domestic violence
- drugs
- fabricated or induced illness
- faith abuse
- female genital mutilation (FGM)
- forced marriage
- gangs and youth violence
- gender-based violence/violence against women and girls (VAWG)
- mental health
- Peer on peer
- private fostering
- preventing radicalisation
- self-harm
- sexting
- teenage relationship abuse
- trafficking.

Links to many of these topics can be found in Keeping Children Safe in Education - [Keeping children safe in education: for schools and colleges](#), page 12.

Annex 2 of this policy also considers some specific safeguarding concerns.

ANNEX 1 – CHILD ABUSE AND INDICATORS OF HARM

PHYSICAL ABUSE

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Indicators in the child

Bruising

It is often possible to differentiate between accidental and inflicted bruises. The following must be considered as non-accidental unless there is evidence or an adequate explanation provided:

- bruising in or around the mouth
- two simultaneous bruised eyes, without bruising to the forehead, (rarely accidental, though a single bruised eye can be accidental or abusive)
- repeated or multiple bruising on the head or on sites unlikely to be injured accidentally for example the back, mouth, cheek, ear, stomach, chest, under the arm, neck, genital and rectal areas
- variation in colour possibly indicating injuries caused at different times
- the outline of an object used e.g. belt marks, hand prints or a hair brush
- linear bruising at any site particularly on the buttocks, back or face
- bruising or tears around or behind, the earlobe/s indicating injury by pulling or twisting
- bruising around the face
- grasp marks to the upper arms, forearms or leg
- petechiae haemorrhages (pinpoint blood spots under the skin) commonly associated with slapping, smothering/suffocation, strangling and squeezing

Fractures

Fractures may cause pain, swelling and discolouration over a bone or joint. It is unlikely that a child will have had a fracture without the carers being aware of the child's distress. If the child is not using a limb, has pain on movement and/or swelling of the limb, there may be a fracture.

There are grounds for concern if:

- the history provided is vague, non-existent or inconsistent

- there are associated old fractures
- medical attention is sought after a period of delay when the fracture has caused symptoms such as swelling, pain or loss of movement.

Rib fractures are only caused in major trauma such as in a road traffic accident, a severe shaking injury or a direct injury such as a kick.

Skull fractures are uncommon in ordinary falls, i.e. from three feet or less. The injury is usually witnessed, the child will cry and if there is a fracture, there is likely to be swelling on the skull developing over 2 to 3 hours. All fractures of the skull should be taken seriously.

Mouth Injuries

Tears to the frenulum (tissue attaching upper lip to gum) often indicates force feeding of a baby or a child with a disability. There is often finger bruising to the cheeks and around the mouth. Rarely, there may also be grazing on the palate.

Poisoning

Ingestion of tablets or domestic poisoning in children under 5 is usually due to the carelessness of a parent or carer but it may be self-harm even in young children.

Fabricated or Induced Illness

Professionals may be concerned at the possibility of a child suffering significant harm as a result of having illness fabricated or induced by their carer. Possible concerns are:

- discrepancies between reported and observed medical conditions, such as the incidence of fits
- attendance at various hospitals, in different geographical areas
- development of feeding / eating disorders, as a result of unpleasant feeding interactions
- the child developing abnormal attitudes to their own health
- non organic failure to thrive - a child does not put on weight and grow and there is no underlying medical cause
- speech, language or motor developmental delays
- dislike of close physical contact
- attachment disorders
- low self esteem
- poor quality or no relationships with peers because social interactions are restricted
- poor attendance at school and under-achievement.

Bite Marks

Bite marks can leave clear impressions of the teeth when seen shortly after the injury has been inflicted. The shape then becomes a more defused ring bruise or oval or crescent shaped. Those over 3cm in diameter are more likely to have been caused by an adult or older child. A medical/dental opinion, preferably within the first 24 hours, should be sought where there is any doubt over the origin of the bite.

Burns and Scalds

It can be difficult to distinguish between accidental and non-accidental burns and scalds. Scalds are the most common intentional burn injury recorded.

Any burn with a clear outline may be suspicious e.g. circular burns from cigarettes, linear burns from hot metal rods or electrical fire elements, burns of uniform depth over a large area, scalds that have a line indicating immersion or poured liquid.

Old scars indicating previous burns/scalds which did not have appropriate treatment or adequate explanation. Scalds to the buttocks of a child, particularly in the absence of burns to the feet, are indicative of dipping into a hot liquid or bath.

The following points are also worth remembering:

- A responsible adult checks the temperature of the bath before the child gets in.
- A child is unlikely to sit down voluntarily in a hot bath and cannot accidentally scald its bottom without also scalding his or her feet.
- A child getting into too hot water of his or her own accord will struggle to get out and there will be splash marks.

Scars

A large number of scars or scars of different sizes or ages, or on different parts of the body, or unusually shaped, may suggest abuse.

Emotional / behavioural presentation:

- refusal to discuss injuries
- admission of punishment which appears excessive
- fear of parents being contacted and fear of returning home
- withdrawal from physical contact
- arms and legs kept covered in hot weather
- fear of medical help
- aggression towards others
- frequently absent from school
- an explanation which is inconsistent with an injury

- several different explanations provided for an injury.

Indicators in the parent:

- may have injuries themselves that suggest domestic violence
- not seeking medical help/unexplained delay in seeking treatment reluctant to give information or mention previous injuries
- absent without good reason when their child is presented for treatment
- disinterested or undisturbed by accident or injury
- aggressive towards child or others
- unauthorised attempts to administer medication
- tries to draw the child into their own illness
- past history of childhood abuse, self-harm, somatising disorder or false allegations of physical or sexual assault
- parent/carer may be over involved in participating in medical tests, taking temperatures and measuring bodily fluids
- observed to be intensely involved with their children, never taking a much needed break nor allowing anyone else to undertake their child's care.
- may appear unusually concerned about the results of investigations which may indicate physical illness in the child
- wider parenting difficulties may (or may not) be associated with this form of abuse
- parent/carer has convictions for violent crimes.

Indicators in the family/environment:

- marginalised or isolated by the community
- history of mental health, alcohol or drug misuse or domestic violence
- history of unexplained death, illness or multiple surgery in parents and/or siblings of the family
- past history of childhood abuse, self-harm, somatising disorder or false allegations of physical or sexual assault or a culture of physical chastisement.

EMOTIONAL ABUSE

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate or valued only insofar as they meet the needs of another person.

It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate.

It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction.

It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children.

Some level of emotional abuse is involved in all types of maltreatment of a child though it may occur alone.

Indicators in the child:

- developmental delay
- abnormal attachment between a child and parent/carer e.g. anxious, indiscriminate or no attachment
- aggressive behaviour towards others
- child scapegoated within the family
- frozen watchfulness, particularly in pre-school children
- low self-esteem and lack of confidence
- withdrawn or seen as a 'loner' - difficulty relating to others
- over-reaction to mistakes
- fear of new situations
- inappropriate emotional responses to painful situations
- neurotic behaviour (e.g. rocking, hair twisting, thumb sucking)
- self-harm
- fear of parents being contacted
- extremes of passivity or aggression
- drug/solvent abuse
- chronic running away
- compulsive stealing
- low self-esteem
- air of detachment – 'don't care' attitude
- social isolation – does not join in and has few friends
- depression, withdrawal
- behavioural problems e.g. aggression, attention seeking, hyperactivity, poor attention
- low self-esteem, lack of confidence, fearful, distressed, anxious
- poor peer relationships including withdrawn or isolated behaviour.

Indicators in the parent:

- domestic abuse, adult mental health problems and parental substance misuse may be features in families where children are exposed to abuse
- abnormal attachment to child e.g. overly anxious or disinterest in the child

- scapegoats one child in the family
- imposes inappropriate expectations on the child e.g. prevents the child's developmental exploration or learning, or normal social interaction through overprotection
- wider parenting difficulties may, or may not, be associated with this form of abuse.

Indicators of in the family/environment:

- lack of support from family or social network
- marginalised or isolated by the community
- history of mental health, alcohol or drug misuse or domestic violence
- history of unexplained death, illness or multiple surgery in parents and/or siblings of the family
- past history of childhood abuse, self-harm, somatising disorder or false allegations of physical or sexual assault or a culture of physical chastisement.

NEGLECT

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate care-givers)
- ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Indicators in the child

Physical presentation:

- failure to thrive or, in older children, short stature
- underweight
- frequent hunger
- dirty, unkempt condition
- inadequately clothed, clothing in a poor state of repair
- red/purple mottled skin, particularly on the hands and feet, seen in the winter due to cold
- swollen limbs with sores that are slow to heal, usually associated with cold

injury

- abnormal voracious appetite
- dry, sparse hair
- recurrent/untreated infections or skin conditions e.g. severe nappy rash, eczema or persistent head lice/scabies/diarrhoea
- unmanaged / untreated health/medical conditions including poor dental health
- frequent accidents or injuries.

Development:

- general delay, especially speech and language delay
- inadequate social skills and poor socialization.

Emotional/behavioural presentation:

- attachment disorders
- absence of normal social responsiveness
- indiscriminate behaviour in relationships with adults
- emotionally needy
- compulsive stealing
- constant tiredness
- frequently absent or late at school
- poor self esteem
- destructive tendencies
- thrives away from home environment
- aggressive and impulsive behaviour
- disturbed peer relationships
- self-harming behaviour.

Indicators in the parent:

- dirty, unkempt presentation
- inadequately clothed
- inadequate social skills and poor socialisation
- abnormal attachment to the child e.g. anxious
- low self- esteem and lack of confidence
- failure to meet the basic essential needs e.g. adequate food, clothes, warmth, hygiene
- failure to meet the child's health and medical needs e.g. poor dental health; failure to attend or keep appointments with health visitor, GP or hospital; lack of GP registration; failure to seek or comply with appropriate medical treatment; failure to address parental substance misuse during pregnancy
- child left with adults who are intoxicated or violent
- child abandoned or left alone for excessive periods

- wider parenting difficulties, may or may not be associated with this form of abuse.

Indicators in the family/environment

- history of neglect in the family
- family marginalised or isolated by the community
- family has history of mental health, alcohol or drug misuse or domestic violence
- history of unexplained death, illness or multiple surgery in parents and/or siblings of the family
- family has a past history of childhood abuse, self-harm, somatising disorder or false allegations of physical or sexual assault or a culture of physical chastisement
- dangerous or hazardous home environment including failure to use home safety equipment; risk from animals
- poor state of home environment e.g. unhygienic facilities, lack of appropriate sleeping arrangements, inadequate ventilation (including passive smoking) and lack of adequate heating
- lack of opportunities for child to play and learn.

SEXUAL ABUSE

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening.

The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing.

They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet).

Sexual abuse is not solely perpetrated by adult males women can also commit acts of sexual abuse, as can other children.

Indicators in the child

Physical presentation:

- urinary infections, bleeding or soreness in the genital or anal areas
- recurrent pain on passing urine or faeces
- blood on underclothes
- sexually transmitted infections
- vaginal soreness or bleeding

- pregnancy in a younger girl where the identity of the father is not disclosed and/or there is secrecy or vagueness about the identity of the father
- physical symptoms such as injuries to the genital or anal area, bruising to buttocks, abdomen and thighs, sexually transmitted disease, presence of semen on vagina, anus, external genitalia or clothing

Emotional / behavioural presentation:

- makes a disclosure
- demonstrates sexual knowledge or behaviour inappropriate to age/stage of development, or that is unusually explicit
- inexplicable changes in behaviour, such as becoming aggressive or withdrawn
- self-harm - eating disorders, self-mutilation and suicide attempts
- poor self-image, self-harm, self-hatred
- reluctant to undress for PE
- running away from home
- poor attention / concentration (world of their own)
- sudden changes in school work habits, become truant
- withdrawal, isolation or excessive worrying
- inappropriate sexualised conduct
- sexually exploited or indiscriminate choice of sexual partners
- wetting or other regressive behaviours e.g. thumb sucking
- draws sexually explicit pictures
- Depression.

Indicators in the parents:

- comments made by the parent/carer about the child
- lack of sexual boundaries
- wider parenting difficulties or vulnerabilities
- grooming behaviour
- parent is a sex offender

Indicators in the family/environment:

- marginalised or isolated by the community
- history of mental health, alcohol or drug misuse or domestic violence
- history of unexplained death, illness or multiple surgery in parents and/or siblings of the family
- past history of childhood abuse, self-harm, somatising disorder or false allegations of physical or sexual assault or a culture of physical chastisement
- family member is a sex offender.

ANNEX 2 – SPECIFIC SAFEGUARDING ISSUES

Child Missing Education

1. All children, regardless of their circumstances, are entitled to a full time education which is suitable to their age, ability, aptitude and any special educational needs they may have. Local authorities have a duty to establish, as far as it is possible to do so, the identity of children of compulsory school age who are missing education (not on a school role or in any other suitable provision) in their area.
2. Schools should put in place appropriate safeguarding policies, procedures and responses for children who go missing from education (truant), particularly on repeat occasions. It is essential that all staff are alert to signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns such as travelling to conflict zones, FGM and forced marriage.
3. A child going missing from education (truant) is a potential indicator of abuse or neglect. School and college staff should follow the school's or college's procedures for dealing with children that go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of their going missing in future.
4. The law requires all schools to have an admission register and, with the exception of schools where all pupils are boarders, an attendance register. All pupils must be placed on both registers⁴.
5. **All** schools must inform their local authority⁵ of any pupil who is going to be deleted from the admission register where they:
 - a) have been taken out of school by their parents and are being educated outside the school system e.g. home education
 - b) have ceased to attend school and no longer live within reasonable distance of the school at which they are registered
 - c) have been certified by the school medical officer as unlikely to be in a fit state of health to attend school before ceasing to be of compulsory school age, and neither he/she nor his/her parent has indicated the intention to continue to attend the school after ceasing to be of compulsory school age
 - d) are in custody for a period of more than four months due to a final court order and the proprietor does not reasonably believe they will be returning to the school at the end of that period
 - e) have been permanently excluded.
6. The local authority must be notified when a school is to delete a pupil from its register under the above circumstances. This should be done as soon as the grounds for deletion are met, but no later than deleting the pupil's name from the register. It is essential that schools comply with this duty so that local authorities can, as part of their duty to identify children

⁴ Regulation 4 of the Education (Pupil Registration) (England) Regulations 2006

⁵ Regulation 12(3) of the Education (Pupil Registration) (England) Regulations 2006

of compulsory school age who are missing education, follow up with any child who might be in danger of not receiving an education and who might be at risk of abuse or neglect.

7. **All** schools must inform the local authority (Pupil Entitlement: Investigation) of any pupil who fails to attend school regularly, or has been absent without the school's permission for a continuous period of 10 school days or more, at such intervals as are agreed between the school and the local authority (or in default of such agreement, at intervals determined by the Secretary of State)⁶.

A2.2 Child Sexual Exploitation

Child sexual exploitation (CSE) involves exploitative situations, contexts and relationships where young people receive something (for example food, accommodation, drugs, alcohol, gifts, money or in some cases simply affection) as a result of engaging in sexual activities. Sexual exploitation can take many forms ranging from the seemingly 'consensual' relationship where sex is exchanged for affection or gifts, to serious organised crime by gangs and groups. What marks out exploitation is an imbalance of power in the relationship. The perpetrator always holds some kind of power over the victim which increases as the exploitative relationship develops. Sexual exploitation involves varying degrees of coercion, intimidation or enticement, including unwanted pressure from peers to have sex, sexual bullying including cyberbullying and grooming. However, it is also important to recognise that some young people who are being sexually exploited do not exhibit any external signs of this abuse.

If you are a professional making a referral for a child or young person who is at risk of CSE, the 'screening tool' Part A would usually be completed

<http://www.westsussexscb.org.uk/professionals/helping-you-work/child-sexual-exploitation/>

Completion of this should not delay you making a referral however it may assist you in being clear about the key areas of concern and the level of risk.

A2.3 Female Genital Mutilation

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences.

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM.

From 31st October 2015, regulated health and social care professionals and teachers in England and Wales must report 'known' cases of FGM in under 18's which they identify in the course of their professional work to the police.

The Home Office has published procedural information on the duty to help health and social care professionals, teachers and the police understand: the legal

⁶ Regulation 12(1) of the Education (Pupil Registration) (England) Regulations 2006

requirements placed upon them, a suggested process to follow, and an overview of the action which may be taken if they fail to comply with the duty. It also aims to give the police an understanding of the duty and the next steps upon receiving a report.

- [Home Office: Mandatory Reporting of FGM – procedure information](#)
- [FGM Mandatory Reporting Fact Sheet](#)
- [FGM Reporting Flowchart for under 18's](#)

A2.4 Preventing Radicalisation

Protecting children from the risk of radicalisation should be seen as part of school's wider safeguarding duties and is similar in nature to protecting children from other forms of harm and abuse. During the process of radicalisation it is possible to intervene to prevent vulnerable people being radicalised.

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism⁷. There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. It can happen in many different ways and settings. Specific background factors may contribute to vulnerability which are often combined with specific influences such as family, friends or online and with specific needs for which an extremist or terrorist group may appear to provide an answer. The internet and the use of social media in particular has become a major factor in the radicalisation of young people.

As with managing other safeguarding risks staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. School staff should use their professional judgement in identifying children who might be at risk of radicalisation and act proportionately which may include making a referral to the Channel programme.

Prevent

From 1 July 2015 specified authorities, including all schools as defined in the summary of this guidance, are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 ("the CTSA 2015"), in the exercise of their functions, to have "due regard⁸ to the need prevent people being drawn into terrorism⁹" must have regard to statutory guidance issued under section 29 of the CTSA 2015 ("the Prevent guidance"). Paragraphs 57-76 of the Prevent guidance are concerned specifically with schools (but also cover childcare). It is anticipated that the duty will come into force for sixth form colleges and FE colleges early in the autumn.

The statutory Prevent guidance summarises the requirements on schools in terms of four general themes: risk assessment, working in partnership, staff training and IT policies.

⁷ Extremism is vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas

⁸ According to the Prevent duty guidance 'having due regard' means that the authorities should place an appropriate amount of weight on the need to prevent people being drawn into terrorism when they consider all the other factors relevant to how they carry out their usual functions

⁹ "Terrorism" for these purposes has the same meaning as for the Terrorism Act 2000 (section 1(1) to (4) of that Act).

Schools are expected to assess the risk of children being drawn into terrorism, including support for extremist ideas that are part of terrorist ideology. This means being able to demonstrate both a general understanding of the risks affecting children and young people in the area and a specific understanding of how to identify individual children who may be at risk of radicalisation and what to do to support them. Schools and colleges should have clear procedures in place for protecting children at risk of radicalisation. These procedures may be set out in existing safeguarding policies. It is not necessary for schools and colleges to have distinct policies on implementing the Prevent duty.

The Prevent duty builds on existing local partnership arrangements. For example, governing bodies and proprietors of all schools should ensure that their safeguarding arrangements take into account the policies and procedures of Local Safeguarding Children Boards (LSCBs).

The Prevent guidance refers to the importance of Prevent awareness training to equip staff to identify children at risk of being drawn into terrorism and to challenge extremist ideas. Individual schools are best placed to assess the training needs of staff in the light of their assessment of the risk to pupils at the school of being drawn into terrorism. As a minimum, however, schools should ensure that the designated safeguarding lead undertakes Prevent awareness training and is able to provide advice and support to other members of staff on protecting children from the risk of radicalisation.

Schools must ensure that children are safe from terrorist and extremist material when accessing the internet in schools. Schools should ensure that suitable filtering is in place. It is also important that schools teach pupils about online safety more generally.

The Department for Education has issued advice and social media guidance to schools and childcare providers to help them keep children safe from the risk of radicalisation and extremism.

The **prevent duty advice** is for/of:

- school leaders, school staff and governing bodies in all local maintained schools, academies and free schools
- proprietors, governors and staff in all independent schools
- proprietors, managers and staff in childcare settings
- particular interest to safeguarding leads.

The **social media guidance** is for:

- headteachers
- teachers
- safeguarding leads.

What do I do if I am concerned someone is at risk of radicalisation?

School staff should understand when it is appropriate to make a referral to the Channel programme.¹⁰ Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. It provides a mechanism for schools to make referrals if they are concerned that an individual might be vulnerable to

¹⁰ Guidance issued under section 36(7) and section 38(6) of the CTSA 2015 in respect of Channel is available at: <https://www.gov.uk/government/publications/channel-guidance>

radicalisation. An individual's engagement with the programme is entirely voluntary at all stages.

Section 36 of the CTSA 2015 places a duty on local authorities to ensure Channel panels are in place. The panel must be chaired by the local authority and include the police for the relevant local authority area. Following a referral the panel will assess the extent to which identified individuals are vulnerable to being drawn into terrorism, and, where considered appropriate and necessary consent is obtained, arrange for support to be provided to those individuals. Section 38 of the CTSA 2015 requires partners of Channel panels to co-operate with the panel in the carrying out of its functions and with the police in providing information about a referred individual. Schools and colleges which are required to have regard to Keeping Children Safe in Education are listed in the CTSA 2015 as partners required to cooperate with local Channel panels.¹¹

In West Sussex, two panels operate, meeting monthly - one specifically for Crawley, and the other for the rest of West Sussex.

A2.5 Peer on Peer Abuse

At North Lancing Primary we believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults in the school and other students

We recognise that some students will sometimes negatively affect the learning and wellbeing of others and their behaviour will be dealt with under the school's behaviour policy or bullying policy in the first instance.

However, we recognise that some allegations may be of such a serious nature that they may raise safeguarding concerns

All staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This may include physical abuse, emotional abuse, sexual abuse and sexual exploitation and may manifest as (though not limited to): bullying (including cyber-bullying), gender based violence/sexual assaults and sexting. Such peer on peer abuse may take many different forms and present in many different ways – see below. **All school staff** must be aware that children can be abusers and any concerns should be discussed with the designated safeguarding lead.

If Peer on Peer abuse is suspected staff should follow section 8.7 of the West

¹¹ Such partners are required to have regard to guidance issued under section 38(6) of the CTSA 2015 when co-operating with the panel and police under section 38 of the CTSA 2015

Peer on Peer Abuse; Prevention

As a school we will minimise the risk of allegations against other pupils by:

- providing a developmentally appropriate PSHE syllabus which develops students understanding of acceptable behaviour and keeping themselves safe
- having systems in place for any student to raise concerns with staff, knowing that they will be listened to, believed and valued
- delivering targeted work on assertiveness and keeping safe to those children identified as being at risk
- developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils.

Allegations against other pupils which are safeguarding issues

Occasionally, allegations may be made against student by other students in the school which are of a safeguarding nature. Safeguarding issues raised in this way may include physical abuse, emotional abuse, sexual abuse and sexual exploitation.

Professionals must decide in the circumstances of each case whether or not behaviour directed at another child should be categorised as abusive or not.

It will be helpful to consider the following factors:

- relative chronological and developmental age of the two children (the greater the difference, the more likely the behaviour should be defined as abusive)
- a differential in power or authority (e.g. related to race or physical or intellectual vulnerability of the victim)
- actual behaviour (both physical and verbal factors must be considered)
- whether the behaviour could be described as age appropriate or involves inappropriate sexual knowledge or motivation
- physical aggression, bullying or bribery
- the victim's experience and perception of the behaviour
- the possibility the abuser is, or was, also a victim
- attempts to ensure secrecy
- an assessment of the change in the behaviour over time (whether it has become more severe or more frequent)
- duration and frequency of behaviour.

Examples of safeguarding issues against a student could include:

Physical abuse:

- violence, particularly pre-planned
- forcing others to use drugs or alcohol

Emotional abuse:

- blackmail or extortion
- threats and intimidation (including racist or homophobic/religious remarks, cyber-bullying)

- isolating an individual from social activities
- sexting

Sexual abuse, including Sexting:

- indecent exposure, indecent touching or serious sexual assault
- forcing others to watch pornography or taking part in sexting

Sexual Exploitation:

- encouraging other children to engage in inappropriate sexual behaviour
- photographing or videoing other children performing indecent acts

Procedure

If there is a safeguarding concern, the designated safeguarding lead (DSL) should be informed.

1. A factual record should be made of the allegation, but no attempt at that stage should be made to investigate the circumstances (though further discussion with the alleged victim/perpetrator may be required by the school if further assessment is required prior to a safeguarding decision).
2. The designated safeguarding lead should contact the MASH to discuss the case.
3. The designated safeguarding lead will follow through the outcomes of the discussion and make a referral when appropriate.
4. If the allegation indicates that a potential criminal offence has taken place, the MASH will consult with the police.
5. Parents of both the student being complained about and the alleged victim should be informed and kept updated on the progress of the referral, unless to do so would place the alleged victim at risk, and/or jeopardise a police investigation. If unsure, advice should be sought.
6. The designated safeguarding lead will make a record of the concern and a copy will be kept on both pupils' files.
7. It may be appropriate to exclude the pupil being complained about for a period of time according to the school's behaviour policy and procedures.
8. Where neither Children's Social Care nor the police accept the complaint, a thorough school investigation should take place in the matter using the school's usual disciplinary procedures.
9. In situations where the school considers a safeguarding risk is present, a risk assessment should be prepared along with a preventative plan. The plan should be monitored and a date set for a follow up review with everyone concerned.

ANNEX 3 – DEALING WITH A DISCLOSURE

If a child discloses that he or she has been abused in some way the member of staff or volunteer should:

- accept what the child says
- stay calm, the pace should be dictated by the child without them being pressed for detail. DO NOT ASK LEADING QUESTIONS such as “did x touch you there?” It is our role to listen - not to investigate
- use open questions such as “Is there anything else you want to tell me?” or “yes?” or “and?”
- be careful not to burden the child with guilt by asking questions like “Why didn’t you tell me before?” but you could ask ‘Have you spoken to anyone else about this?’
- acknowledge how hard it was for the child to tell you
- not criticise the perpetrator, the child might have a relationship with them
- not promise confidentiality, but reassure the child that they have done the right thing, explain whom you will have to tell (the designated lead) and why and, depending on the child’s age, what the next stage will be. It is important that you avoid making promises that you cannot keep such as “I’ll stay with you all the time” or “it will be all right now.”

If you are in any doubt as to whether to refer the matter speak and discuss with MASH.

When recording information:

- make detailed notes at the time or immediately afterwards; record the date, time, place and context of disclosure or concern. Record facts and what is said but not your assumption or interpretation.
- if it is observation of bruising or an injury try to record detail, e.g. “right arm above elbow”. Do not take photographs!
- note the non-verbal behaviour and the key words in the language used by the child (try not to translate into ‘proper terms’).
- it is important to keep these original notes and pass them on to the designated safeguarding lead who may ask you to write a referral.

It is recognised that staff working in a school who have become involved with a child who has suffered harm, or appears to be likely to suffer harm may find the situation stressful and upsetting. The school will support such staff by providing an opportunity to talk through their anxieties with the designated safeguarding lead and to seek further support as appropriate. WSCC school staff have access to a free, 24/7 and confidential counselling service.

ANNEX 4 – RECORDING FORM

Child's name:			
Date and time:		DOB	
Name and role of person raising concern:			

Details of concern (where? when? what? who? behaviours? use child's words)

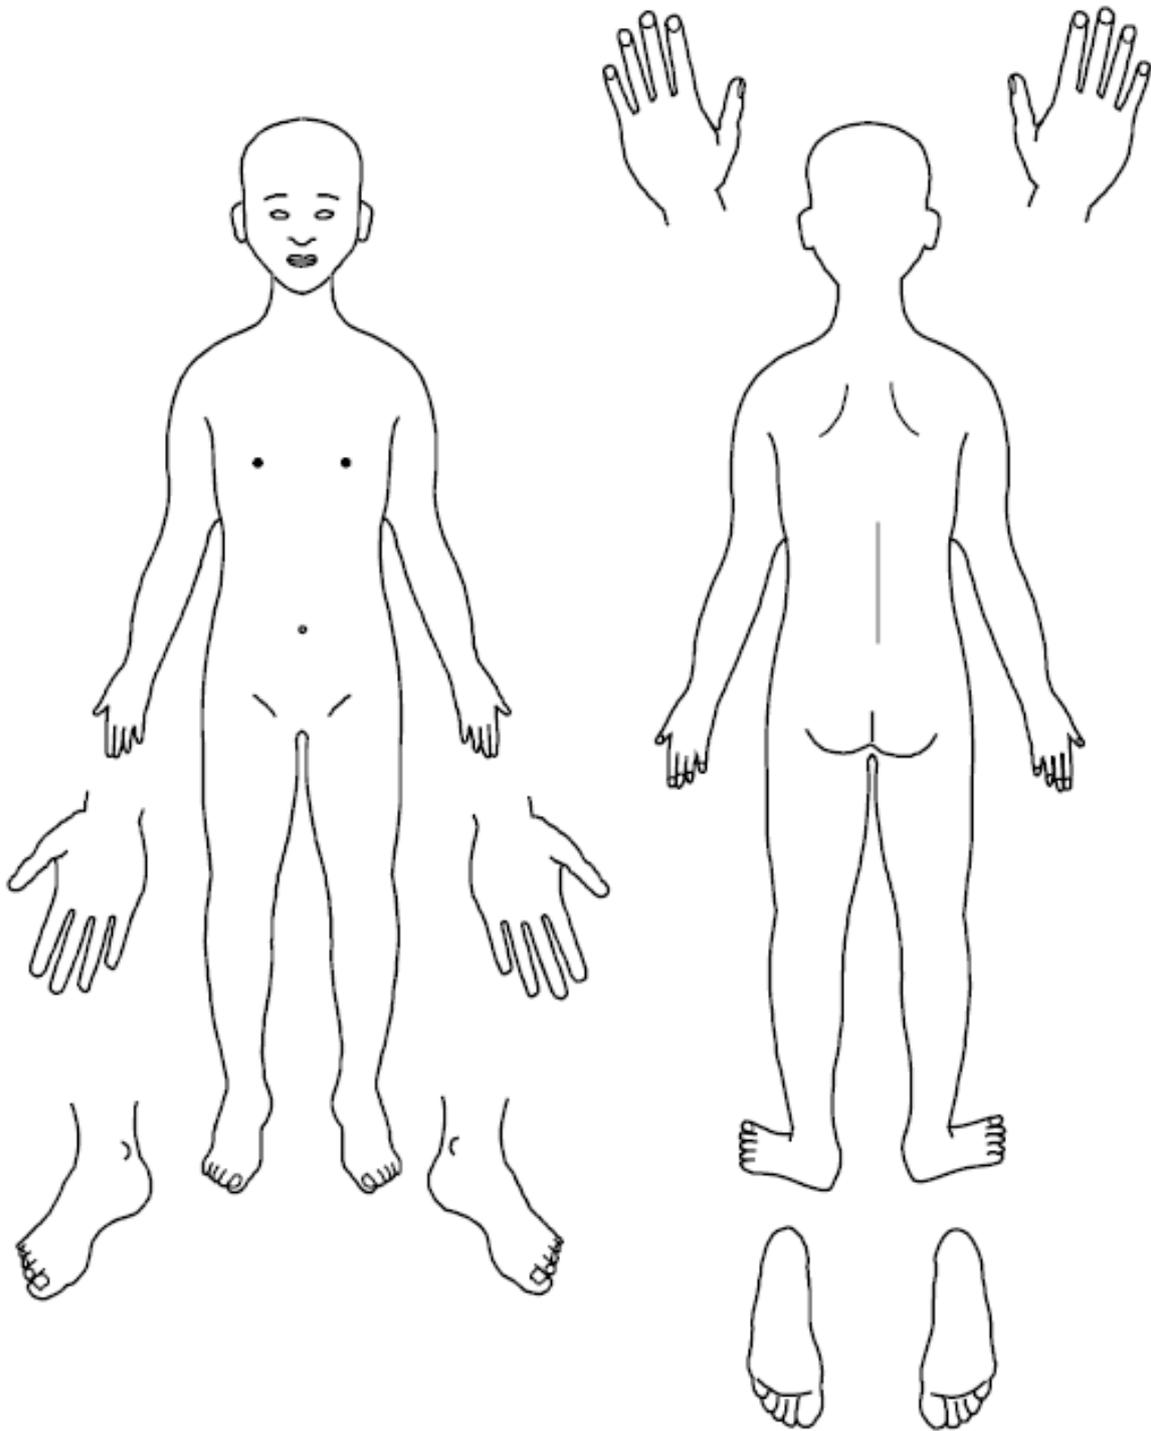

Actions taken			
Date	Person taking action	Action taken	Outcome of action

Name:

Designation:

Copied to:

Skin map

Name of Child: _____

Date of birth: _____ Date of recording: _____

Name of completer: _____
