

# NORTH LANCING SCHOOL

## Parent/guardian consent to administer short-term non-prescribed 'ad-hoc' medicines

<b>Pupils Name</b>	<b>D.O.B</b>
<b>Gender</b>	<b>Year/Tutor Group</b>

The WSCC Medicines Policy now permits the school to administer the following non-prescription medication if your child develops the relevant symptoms during the school day. Pupils will be given a standard dose suitable to their age and weight. To avoid the chance of over-dosing we will check with your child that they have not had a dose earlier in the day and if in doubt will contact you prior to giving the medication. You will be informed, as a matter of course, when the school has administered any medication.

The school holds a small stock of the following medicines:

- Paracetamol**
- Anti-histamine**
- I confirm that I have administered these medications in the past without adverse effect.**

Tick the non-prescription medications above that you give your consent for the school to administer during the school day and confirm that you have administered these medications in the past without adverse effect. Please keep the school informed of any changes to this consent. The school will not administer non-prescribed medication unless this form is completed and signed.

This information will be kept securely with your child's other records. If further information is needed we will contact you. Please do not hesitate to contact the school if there are any issues you wish to discuss.

Parents will still need to complete a 'medicine in school' form for any medication prescribed by the doctor as is our current practice.
